

A tool for Developers to rapidly build Data Solutions.

- ☰ We are a team of Developers
- ☰ We recognized a need to manage data needs & tech sprawl
- ☰ You can now build data applications rapidly with our FREE platform

What is The Nominode?

A FREE platform allowing users to subscribe to apps and build custom data solutions for the needs of their clients, teams and businesses.

How efficiently could you create data solutions if the user interface, automation, and security was already built for you?

FREELANCER COMMUNITY

You're hungry to build data solutions and scale them to more users

- Own what you build
- Distribute your app in our store
- SDK & support available
- Library of Video tutorials
- Open a FREE account

ENTERPRISE COMMUNITY

Your buffet line is full of business users asking for data solutions

- Download data solutions already built for you
- Build solutions up to 400% faster
- Secure - Data never leaves your servers
- Empower your Dev team
- Customized solutions available
- FREE up to 5 users
